EXAMINER'S ACTION

Art Unit 1202

Applicant's election of invention I, claims 1-3 and 13-16 in Paper No. 9, filed 12/13/91 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (M.P.E.P. § 818.03(a)).

This application contains claims 4-12 drawn to an invention non-elected with traverse in Paper No. 5. A complete response to the final rejection must include cancellation of non-elected claims or other appropriate action (37 C.F.R. § 1.144) M.P.E.P. § 821.01.

Claims 1-12, 14, 15, 17-20 are in the case. Claims 13 and 16 have been canceled. Claims 17-20 have been added by amendment. Claims 4-12 have been withdrawn from consideration as being drawn to a nonelected invention.

Claims 14, 18 and 20 are rejected under 35 U.S.C. § 101 because they lack patentable utility. This rejection was first applied to claim 14 in paper 6, filed 7/9/91. Since applicant has not traversed this ground of rejection, the examiner assumes that applicant acquiesces to examiner's rejection. Claims 18 and 20 are rejected for reasons applied to claim 14 in paper 6, filed 7/9/91.

Claims 14, 18 and 20 are rejected under 35 U.S.C. § 112, first paragraph, for the reasons set forth in the objection to the specification in paper 6, filed 7/9/91.

In addition, claim 20 is not supported by an adequate written description in the specification. There is no description of what is meant by 'mammaliana' in the specification.

Claims 14, 15, 17, 18 and 20 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 14 and 15 were rejected in paper 6, filed 7/9/91 under the same statute but applicant has not argued this ground of rejection. Applicant is assumed to have acquiesced on this rejection. Claim 18 is open ended. It is not clear to what or whom the method is applied. Claim 17 is redundant in that it is not distinct from claim 1 from which it depends. *Sakano et al. v. Rutemiller*, 158 USPQ 47. Claim 20 lacks antecedent basis in the specification because 'mammaliana' are not described in the specification.

Claims 1, 14, 15 and 17-20 are rejected under 35 U.S.C. § 103 as being unpatentable over Bratsand et al. (A)

Claims 1-3, 14, 15 and 17-20 are rejected under 35 U.S.C. § 103 as being unpatentable over Bratsand et al. (A) in view of Bratsand et al. (B).

Since Applicant has not argued these rejections separately, they will be treated together. Applicant relies on the data provided in the attachment to the response to overcome the

Art Unit 1222

rejection. This is not sufficient to overcome the rejection because the data are not presented in declaration form and because it is not possible to determine from the data whether they were acquired under the same conditions because Meier is a foreign language reference which the examiner cannot comprehend. Furthermore, the data presented are not convincing in and of themselves because the therapeutic Index Systemic ED 50/ Topical ED 50 values for example 16 of Brattsand et al. and EL-854 are very similar and one of skill in the art would expect the two to have similar activities due to their similar structures. Thus the results presented are not convincing.

Arguments directed to MacDonald and Diessi are deemed moot since no rejection has been made over these references.

Applicant's attention is drawn to the PTC-1449. Certain references were not considered by the examiner. AAC and AAK are not in English and are not understandable by the examiner. AAL and AAM are not publications available to the public. References AA, AB and AC were previously cited by the examiner.

Note also that titles and dates of publications should always be provided on the 1449.

Applicant's amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).
